ABOUT ME

I'm a software developer who loves to solve complex problems and challenges. I'm an independent problem solver, life-long learner, team player, critical and logical thinker. I'm highly passionate and curious about programming and I love creating digital products that would positively impact humanity. I also prefer working with programmers who look at programming as an art and make an art with it.

SKILLS

PROGRAMMING

HTML CSS JavaScript React Redux Typescript Node Express MongoDB RestAPI GraphQL
